# OUR HISTORY

---

Over the last three decades, we have grown to accommodate over 400 students. Our home, the beautiful and historic Spring Lake Community House, includes a 350 seat fully equipped theater and two dance studio spaces that create an authentic theatrical experience beyond comparison!

Drama classes focus on stage direction, improvisational skills, theatre games and character development. Music classes focus on vocal parts, rhythms, auditioning, proper breathing techniques and choosing songs to fit students' abilities and personalities. Each child is placed according to his or her grade level. Our dance instructors stress proper technique in ballet, tap, jazz, lyrical, hip-hop and musical theatre. Through incredibly choreographed rehearsals, students achieve optimal growth in their ability to perform onstage as well as overall dance knowledge.

The Community House Theatre and Dance program is sponsored by the Spring Lake Memorial Community House Board of Trustees.

---

# OUR MISSION

---

The Spring Lake Community House Theatre Workshop and Dance Programs are committed to providing a safe and nurturing environment for students of all ages. Our goal is to maintain strong communication between our staff and our students' families through our open door policy. Many of our graduating seniors receive scholarships to college partially based on their activity in our program. Our instructors are positive role models for our students, bringing their experiences and expertise to every class and assisting the students in reaching their goals. Thank you for sharing your children with us, we're looking forward to another successful and creative year!

# Dance Program Information

Our dance program has the reputation of developing strong technical dancers who love the art of dance. We offer classes in pointe, ballet, tap, jazz, lyrical and hip hop for dancers three years old and older. Our goal for each student is that they grow as both people and dancers and build confidence through hard work and dedication in classes. Our staff works hard to make the studio a non-threatening environment where students can try new things and make new friends. Since our studio focuses on a wide range of techniques, we find that our dancers become very versatile and successful when they continue their training outside of the studio.
